

INSPIRE GUIDE

ORLANDO OPERATION

2016 / 6 / 17 - 1437 / 9 / 12

The Orlando Operation:

All praise is due to Allah who said «Then fight in the way of Allah, you are not tasked (held responsible) except for yourself, and incite the believers» {4:84} And may the peace and blessings be upon the one who was sent by the sword until Allah alone is worshiped.

To Proceed:

In Continuation upon the path of the blessed global Jihad, whose idea was set and its spark ignited by Sheikh Osama Bin Laden- May Allah give mercy to him. The one who strengthened its roots and structuring its building through the 911/ operation and other operations before it. And in continuation upon the call to Lone Jihad, of which the necessity of war gave rise to it, making it a significant important military means inseparable from the interests of the Ummah to pressure and defend upon the American Imperialism. And in continuation in providing support through Inspire Magazine towards this blessed call to Lone Jihad operations in the West specifically. We have and continue to provide assistance to this Jihad. And in addition to this and through its team that focuses on guidance to the Lone Mujahid, we have decided to make a new addition in support of Lone Jihad, namely: «Inspire Guide». So as to follow-up, guide, put right and correct Lone Jihad operations in order to realize the best military and political results that serve the general policy of the Mujahidin in our war with America.

Today we are witnessing the event of the Lone Jihad hero Umar Siddeq Mateen, who wrote a heroic fierce battle and martyrdom operation, which subdued America and made it live in a day of terror. And we continue to see the consequences of the operation still going on.

The Mujahid Umar Mateen selected the Pulse nightclub for homosexual in Orlando city, Florida. The attack took place during the late hours of the night when the Lone Mujahid Umar opened fire his machinegun towards the unconscious drunk crowd who were under the sounds of loud Latino music.

The nightclub was packed with 350 people, 50 were killed and 53 injured. Some were taken hostage by Mateen and were later on freed by police after a fierce exchange of fire that resulted to the martyrdom of our hero. With his pure blood he drew by this blessed operation a historical battle for the Lone Mujahid that America will never forget, as they describe it to be the worst shooting incident in the history of the United States.

As for us, we welcome this blessed operation and call for more similar Lone Jihad operations. We stand by and support all Muslims who attack America in their homeland regardless of their affiliation to any group or loyalty. We call upon all those oppressed by America, be it a Muslim or not, to retaliate and take back their rights by any possible means (under the umbrella of Shari'ah) from this oppressive state.

We will try, basing on the details of this blessed operation, mention its advantages, place some

observations, directions and give advice that will benefit the Lone Mujahid in future operations:

The assault operation on the Orlando nightclub can be classified as an operation «Targeting general gatherings». These kind of operations are important mainly because of the goals that can be achieved through them in our war with America. They send a direct message to the oppressive public before their government, on the reasons of the operation. Sending a message to the public that elects, supports and pays taxes to their criminal governments. Messages mentioned in the famous equation by Sheikh Usama stating, «Peace is a two way equation as you kill us you too will be killed». These messages are echoed by such operations. And if they were to be comprehended by the American public, they will eventually pressure their government to stop and prevent the oppressive polices against Muslims everywhere. Umar Mateen's operation was upon this important path and context. We call upon and continue to call for the likes of these operations that target the general populations in America (Combatant Public), who are generally at war with Islam. And when we talk of the population being at war (the combatant public), this mean that we no longer view them as civilians in America.

Mentioning the most important characteristics and advantages of this operation:

First: This operation is considered to be among the most successful Lone Jihad operations, meaning that it will inspire others to wage similar operations especially because the number of those killed was too high with regard to these types of operations. Therefore every new Lone Mujahid will try to do his best to realize and attain a similar or more fatalities in his operation. And this encourages those hesitant to wage and launch their own operations, especially when they see how easy it is to execute an operation.

Second: The number of those killed in the operation was high compared to other Lone Jihad operations. And perhaps the most important reason for this was the location of the operation. It was a closed area and thus making it very easy to chase and hunt the targets.

Another reason was the timing and the state of those targeted. It was late during the night and those present in the nightclub were drunk.

A third reason was that the Lone Mujahid was well trained in handling firearms; this was because of his job in a security firm.

Third: After attacking the targets, the brother Umar was able to take many hostages and lengthen the battle for as long as possible. This enabled him to send his message better and the whole world listened to his case broader. Brother Umar was able to delay the battle for three hours until the authorities attack with armored vehicles and put an end to the operation, they tried to free the hostages by any means possible regardless of the results. And because Umar was able to restrain the hostages in the restrooms in order to take control of the situation easily, this made it difficult for the police to attack and hunt him down and they eventually resorted to use maximum force to put an end to the situation. The uncalculated approach by the police caused injuries to some of the hostages who survived. And this can only be termed as an embarrassment to the government which prioritized ending the operation over their citizen's lives.

Fourth: Capitalizing on the means and using it well:

Umar capitalized on the means available at his reach, his machine gun, which he officially owned. He did not wait to prepare for more means to assist him in his assault; he rather used and invested well on

the means readily available to him. Utilizing it well in manner and tactic, during the attack. This matter always confirms to us that the main problem is not in obtaining the weapon, but is in the conviction, determination and will power to execute such Jihadi operations.

These are the important advantages and merits of this operation and I will try here to pause and mention some points and details of this operation and other Lone Jihad Operations in general.

First:

The executer specifically chose a homosexual nightclub, and even though the killing of such people is the most binding duty and closer to human nature, but better than this is to avoid targeting areas where minorities are found. This is in order not to deviate the essence of the operation and letting it be termed as a small issue as the American media is trying to portray in the case of Mateen. The Western media focused on the testimony by Mateen's father who said that his son hates homosexuals and that terrorist ideas had no place in his motives. The media reiterated this, saying that Umar saw some homosexuals kissing each other and that such a scene offended him. The media tried to portray the operation motives to be against a particular group of people in order to turn the American public away from the real motives of the operation.

Second:

Most of the individuals present at pulse nightclub were Latino. We recommend – And Allah knows best - that it is better to avoid targeting places and crowds where minorities are generally found in America. knowingly that the federal government will be the one taking full responsibility. Therefore we advise targeting areas where the Anglo-Saxon community is generally concentrated. This class of the American community is the majority and it is the one that is in the American leadership.

And here we presents some advices and guidelines for similar operations:

There were 350 people in the nightclub, 50 were killed, 53 injured i.e. a third were targeted and two thirds of them survived. It was possible to realize more and better results if the executer had merged and used other means in executing the operation. It is true that we call to the use of means readily available just as the Mujahid Umar Mateen did. Except that he was in a position to make simple explosive devices whose design we have already laid out in Inspire magazine. This will result to more deaths. In the case of the Orlando attack, it was possible to place an explosive or many explosives at the center of the club and blow it up to prevent anyone from entering or exiting from and to be able to finish off anyone who was still alive. The Lone Mujahid can refer to the first and the twelfth issue of Inspire magazine to revise on how he can use such explosives in such operations.

We finally call upon the Muslims in America to take up arms in defense of their religion and the Islamic Ummah. Lone Jihad is not monopolized by al-Qaida or any other group, therefore we call upon all active Jihadi groups, to adopt and build upon the idea of Lone Jihad and call towards it. We call upon every single Muslim in Western countries or in other countries who are able to travel to the West to follow upon the footsteps of our hero Umar Mateen and his likes. To rise and strike America, the head of kufr. We ask Allah to accept our hero Mujahid brother Umar Siddeq Mateen. May Allah place him in the highest paradise with the messengers, Prophets and Martyrs.

Amin

Lone Jihad Guide Team
