

Allah the Exalted said "Verily those who disbelieve spend their wealth to avert from the path of Allah, so they will spend it and then it will be a source of regret for them, and then they will be overcome. And those who have disbelieved, they will be gathered in Hell. So Allah may distinguish the wicked ones from the good and place the wicked upon others and gather them all together and put them in Hell. It is those people who are the losers." Al Anfal/ 36-37

One of the most common words and terms spread in our currently reality is the term terrorism, and its importance is not as real of a reality as what the leaders of the contemporary crusaders desire who do not value words and terms except insofar as they have self-interest, and the name of terrorism has been pasted for Muslims in the first position and terrorism has not been mentioned in any conference except in the minds directed toward Muslims individually and collectively, as for what others practice is self-defence and reactions and pro-active operations to the last of these sophisticated terms which were picked professionally and carefully.

The current Crusader campaign has been keen on consolidating this understanding for the people and societies via the conferences and the meetings and seminars which do not stop. You will not find a region conference nor an international conference except with a subject of "fighting terrorism" on the top of the list of that conference, and whether these conferences were periodic or non-periodic, even the conferences for the women and especially for women's affairs were not without discussion of this subject to prove to the masters they are going according to what has been drawn and been planned for them and to go towards it.

The leadership and leaders and kings of the Arab Islamic countries chose since America's announcement of the War on Terror that they were a united rank under the banner of the cross, and that they mocked their lands and their abilities and their riches and their armies and their intelligence apparatuses for its service and its subsidization and they did not advance a field in the war on Islam except if they had an advantage to prove their allegiance and their love and their subservience, and in the latest chapters of this continuing Crusader war it began with a bloody and shocking scene of corpses and flesh scattered in the worst form of terrorism practiced by the regimes,

to bring to the hero immediately to address his people that he is staying in the War on Terrorism and eliminating the ones who commit takfir from the region and the world, in a weak representative scene supported by the shameful media arm in preparation for the scene coming from the Saudi capital ar Riyadh, which announced with all gall the opening of the first assembly of the "Islamic Military Alliance to Combat Terrorism" under the supervision of the political teenager Muhammad bin Salman, to complete the chapters of the series which were started by the leader Sisi to cover the repeated failure for the young Emir inside Saudi Arabia and in Iraq and the Levant and Yemen and Lebanon, and to re-affirm the nickname of the young Emir "Servant of the Cross" instead of the old nickname, and it is a price worth paying thousands of innocent people throughout our Islamic world.

The war which America and its Western allies lead under the name of fighting terrorism is part of the global crusader war against Islam, Allah the Exalted said "And they will continue to fight you until they turn you back from your religion if they are able. And whoever of you reverts from his religion [to disbelief] and dies while he is a disbeliever - for those, their deeds have become worthless in this world and the Hereafter, and those are the companions of the Fire, they will abide therein eternally." Al Baqarah: 217 To improve their image with the Muslims the envelope it with a cover suitable for modern terms except that it comes out time to time on the tongues of their leaders, and even Bush said before the invasion of Afghanistan: "We are fighting a crusade of a new kind."

And Tony Blair, the Prime Minister of Britain, said before his soldiers in Basrah: "You are here to fight the Islamic virus." Trump explained that the King of Jordan and as Sisi were "two allies to confront extremist Islam," and finished it by announcing with an evil omen that "al Quds is the Capital for the Zionists."

This is the trust of the battle and who does not realize that does not know yet the nature of the conflict, and the real dimensions of this ferocious Crusader war were not made clear!
