The Crazy Week

After the blessed raids of September 11, and at the time when most of the brothers were concerned with following the number of killed and wounded in the ranks of the Zionist-Crusader enemy, Sheikh Usamah bin Laden, may Allah have mercy on him, was paying most attention to the economic news, and following the major transformations and devastating shocks to the global infidel economy, and he, may Allah have mercy on him, was throughout his leadership for the battle against the Zionist-Crusader alliance focused on the economic situations and seeking to read about it with his brothers who had experience in this field.

The Sheikh, may Allah have mercy on him, and his brothers understood that the destruction of the global disbelief is in targeting and destroying components of this economy, in targeting Western consumer confidence which is negatively and positively affected by the extent of its feeling of security or lack thereof, and praise to be Allah that it, that since the blessed raids, and the global infidel economy almost got out of a crisis before entering another one, and all its efforts in re-habilitating its economy and leaving the consequences of the raids returned, and praise be to Allah, in expensive failure.

But the economy has increasingly deteriorated and entered a dark tunnel, and the American public debt reached astronomical numbers and exceeded 20 trillion dollars, which is more than 125% of Gross Domestic Product (GDP), and many of the economic analysts and experts came to a meaningful conclusion that the American economy is threatened by total collapse because of this dangers and unprecedented rise in public debt by the head of the global disbelief America.

The good news came this past week and which was nicknamed the Crazy Week, with more turmoil and lack of stability in the American and global financial markets, where the main stock indices in the stock markets of America and the world indicated a sharp decline which sometimes exceeded 10% in economic movement which was not understood even by the cooky and Habi of the era American President Trump,

these setbacks came despite positive economic figures in the unemployment and increase in growth rate, the idiot said in the last of his tweets confused in what happened and said: "in the past when good news was published the markets rose, as for today when the good news was published the financial markets went down, it is a big mistake...". Yes, it is a dark tunnel which the mujahidin shot America into, with their sacrifices and their patience and their steadfastness and Allah is sufficient for them, and Allah permitting and with His power and His strength, American will not get out of this except exhausted and destroyed and disappointed and defeated.

One of the pillars of the Republican Party Judd Gregg - Deputy Republication for the State of New Hampshire - was asked during the economic crisis in 2009 about the reasons of the crisis: "In the year 2000, it was expected that there would be an increase in the budget after some good luck in the economy and after serious work, then came this huge reduction in taxes, and in examination, do you consider this wrong?"

And he replied: "No never, the expected increase was not lost due to a reduction in taxes, but rather we lost it because of the September 11th operations and its impact upon the economy, and you must remember that September 11th is considered a catastrophic event to our nation, and it was reorganized our nation in many ways, and one of the manifestations of this reorganization is that we have experienced a deep economic deterioration."

This deep deterioration increased with America's entry in its two draining wars in Iraq and Afghanistan, to finally becoming the longest ongoing war in America's history and to this day it has not succeeded in getting out of it.

This is on one hand and on the other hand and it is most important? The global infidel economy carries with it factors of ruin and choice and demise, and it depends on interest in its ugliest form, and the Creator, glorified and exalted is He, in His book: (.And if you do not, then be informed of a war against you from Allah and His messenger..), and Allah is sufficient in fighting them to defeat the group and ensuing the finale, and what is incumbent upon the mujahidin of the Islamic Ummah is nothing more than patience and steadfastness and continuing the jihad against the global disbelief and chief among them America so victory and conquest comes soon Allah permitting, so increase determination and gather inspiration and keep targeting American economic interests inside and outside America.

You, Oh Ummah of Islam, are standing next to your righteous mujahidin sons at all the jihadist fronts whose doors were opened in most of the Muslim countries,

and they bring new blood and support them in what Allah has granted you in wealth and men { Go forth, whether light or heavy, and strive with your wealth and your lives in the cause of Allah . That is better for you, if you only knew. (41).

And a special call to the soldiers of the Islamic State in Afghanistan to see Allah is among you and loves what you do and continue your jihad and your fight and your exhausting of the evil American empire until it receives the fate of its predecessors from the empires of disbelief Britain and the Soviet Union where their graveyard was in the glorious land of Khurasan.

We complete this edition with words filled with certainty with Allah's victory from the martyr of Islam Usamah bin Laden, may Allah have mercy on him: "In addition to our experience in guerrilla war and war of attrition in the fight against the oppressive powers, where we roared with the mujahidin against Russia for ten years until they became bankrupt by the grace of Allah and they were forced to withdraw defeated, and praise be to Allah, and we remain on this policy of exhausting America to the degree of bankruptcy Allah permitting, and what is with Allah is strengthened."
